

Spreading perfection...
... across the globe

Providing Services internationally across sectors like Chemical, Petrochemical Plants, Refineries, Fertilizer Plants, Cement Plants, LNG Terminal, Power Projects, Steel Plants, Pharmaceutical Plants etc.

VISION

Miraj Instrumentation Services India Private Limited shall strive to attain leadership in the field of instrumentation and electrical services & achieve highest level of customer satisfaction.

We shall exceed customer expectations through dedicated efforts, quality work, and commitment, transparent and fair operations.

The triangle is the most solid, stable and immovable geometric form. It is in combination with the most perfect, flexible and fluidic form, the circle. The two forms represent the two qualities of Miraj; unparalleled expertise and flexibility in responding to client needs. Being an optical illusion, the triangle brings in an element of motion and innovation, suggesting rare capabilities in executing the most difficult projects. The circle on the tip is a delicate balancing act of expertise, skills, perfection and customer satisfaction.

MIRAJ INSTRUMENTATION SERVICES INDIA PRIVATE LIMITED

- Udyogbharari Award - 1999-2000
- Udyogshree Award - 2003
- Star Performers in Project Group - 2008-09 Trophy (EEPC INDIA)
- NSIC-CRISIL Performance & Credit Rating for Small Scale Industries
- ISO 9001:2008 Certificate
- OHSAS 18001:2007 Certificate & OHSAS Award in 2012

Miraj is one of the well known and reputed contractors to offer Instrumentation & Electrical Installation Services across India and abroad. We have a vast experience and know-how of numerous industries having served sectors like Oil and Gas, Power, Fertilizer, Chemical, Water, Life science etc.

Incepted in 1995, our company has emerged as reliable partner for satisfied customers in various industries under the leadership of Mr. Rajesh P. Solanki.

Customer satisfaction is our main focus. With a deep understanding of client requirement, we strive to deliver up to customer expectations with operational excellence.

We undertake annual & shutdown maintenance contract & also supply skilled technical manpower on deputation basis as per requirements of clients.

In addition, our portfolio includes calibrating all process control instruments as per ISO 9001 norms for certifications.

Why Miraj?

- Technical Competency
- Operational Excellence
- Commitment Towards Quality And Safety
- Stable Financial Background

Miraj Strides ... 1999 to 2013

Focus on expertise, capability, training,
safety, performance...

Electrical Engineering Services

- Supply & installation of power and lighting systems, switchyards, motor control centers, high tension & low tension cable laying.
- Installation of project infrastructure systems including breakers, ladders trays, conduits etc.
- Procurement of hardware material such as cable trays, earthing strips, steel etc and other devices and materials for service application and distribution.
- Installation of switch yards, bus ducts, transformers, MCC panels.
- Installation and commissioning of power generation equipment.
- Installation of terminal box and distribution of I/O cubicles.

Instrumentation Services

- Supply & Installation of field instruments, panels, junction boxes, cable glands & perforated cable trays, pedestal fabrication for support of instruments and cable trays etc.
- Installation of systems including hazardous area control systems, SCADA systems, DCS and PLC systems, fire and gas systems and process installation, testing & commissioning of indicators, transmitters and controllers, valves & other field instruments.
- Installation including cabling, marshaling panels, instruments, air/gas tubing and impulse piping work etc.
- Testing, calibration & loop checking through fully trained technicians with NABL certified testing equipment.
- Ability to pre-fabricate instrument support & other fabrication work for control packages on or off site.
- Provide skilled Engineers, Technicians for shut down maintenance, installation and commissioning activities as required.
- Installation of terminal box and distribution of I/O cubicles.

Testing

- In view of the increased needs for certification, instrument testing and testing of electrical installations, we now offer a comprehensive testing, calibration NABL certification service.
- This service is particularly relevant regarding periodic inspection and testing as per ISO 9000.
- Testing, calibration and loop checking through fully trained technicians and engineers.

Commissioning

- Validating and trouble shooting of new and existing instruments.
- Deputing engineers, supervisors, instrument technicians, skilled fitters and electricians with relevant industry experience and competencies.
- Having people with experience in commissioning of Instrument & Electrical control systems in a diverse range of processes within any environment.
- Provide documentation that is traceable to international standards.

Calibration

- Miraj owns a range of latest certified test and calibration equipments as required.
- We offer on site services of calibrations all across India.
- We have the ability to hire / deliver and operate other test and calibration equipments as required.
- We set up laboratories at site as per requirement.
- Testing, calibration and loop checking through fully trained technicians and engineers.

Providing
Contracting
Services across
sectors:
Chemical,
Petrochemical
Plants, Refineries,
Fertilizer Plants,
Cement Plants,
LNG Terminal,
Power Projects,
Steel Plants,
Pharmaceutical
Plants etc.

E & I (Electrical & Instrumentation) Contractors

- Our expertise includes Plant Shutdowns, Turnarounds, Comprehensive Startup & Commissioning Services.
- Installation of power equipments like switchyards, motor control centers, high tension & low tension cable laying works and process & control equipments including hazardous area control systems, SCADA systems, DCS & PLC systems, fire & gas systems and process installation, termination & commissioning of indicators, transmitters & controllers, valves & other field instruments.
- Installation of switch yards, bus ducts, transformers, MCC panels.
- Installation and commissioning of power generation equipment.
- Testing, calibration & loop checking through fully trained technicians with NABL certified testing equipment.
- Specialist knowledge on industrial projects for material selection and procurement related to electrical & instrumentation hardware material.
- Maintenance of new and existing plants.
- Application of engineering concepts to optimize equipments, procedures and budgets to achieve better maintainability.

C&I Contractors (Control & Instrumentation Contractors)

- We provide C&I Contracting and Installation of systems including hazardous area control systems.
- SCADA systems, DCS and PLC systems, fire and gas systems and process installation, termination & commissioning of indicators, transmitters and controllers, valves & other field instruments.
- Installation including cabling, marshalling panels, instruments, air/gas tubing and impulse piping work.
- Testing, calibration & loop checking through fully trained technicians with NABL certified testing equipment.
- Specialist knowledge on industrial projects for material selection and procurement related to electrical & instrumentation hardware material.
- Supply of instruments, panels, junction boxes, cable laying & termination, perforated cable tray work, pedestal fabrication.
- Maintenance of new and existing plants.
- Engineering concepts to the optimization of equipment, procedure and budgets to achieve better maintainability.

Manpower Services

- We provide skilled and experienced manpower on deputation basis for all kinds of projects and for shut down at refineries, power plants, fertilizers plants etc.
- Provide skilled engineers, technicians for shut down maintenance, installation and commissioning activities as required.
- We depute engineers, supervisors, instrument technicians, skilled fitters and electricians who have relevant industry experience and competencies.

Project Management at Miraj Instrumentation

- We manage Instrumentation and Electrical installations for our customers.
- We have an experienced Project Management team with wide experience in the Instrumentation and Electrical field that understands the unique requirements of every project which translates into successful project execution.
- We provide engineering services and industry professionals to ensure effective management of all phases of projects.

Safety and Compliance

At Miraj, continual improvement is our responsibility.

- Our compliance and safety division regularly maintains and audits all requirements as per international norms.
- We regularly conduct safety drills Workshops and Training for onsite and offshore personnel.
- With our commitment to safety, we strive to establish an environment of accident free sites.

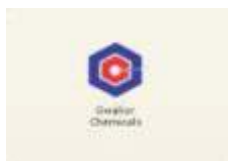

Talent is nurtured at Miraj

- At Miraj, we develop, motivate, and retain productive, engaged employees to create a sustainable organization that meets its strategic and operational goals and objectives.
- Our numerous awards and accolades are testimony to the performance oriented team at Miraj.

and a lot more...
